

Mag Data Spa, founded in Colorno (PR) in 1985, is a company specializing in the distribution of plastic films and bioplastics.

Our selection of films for the **INDUSTRIAL** sector provides customers with a wide range of materials suitable for use in different **application areas**:

- Adhesive tapes Film for finishing in the textile and leather
- Film for sublimation
- Film for lamination in the furniture sector
- Film for cable protection
- Film for bitumen roofing sector
- Film for siliconizing sector
- Film for release
- Applications for release agent in the electrical cable sector

The main materials we focus on are **BOPP**, **BOPET**, **BOPET PCR Recycled from Post Consumption**, **CELLULOSE ACETATE**, **ALU** and **KRAFT PAPER**, which are part of the wider range of **MAG DATA** and **ULTRALEN** branded solutions.

The **modes of delivery** offered are varied so as to meet the diverse needs of our customers:

- **Stock service**: fast delivery of quantities ranging from small batches to full trucks. Availability of the required sizes is also made possible by the presence of dedicated cutting facilities in the production area.
- **Call-off formula**: customers build up their own stock at our facilities, thus reducing their financial and warehouse commitments and always having their goods available thanks to fast and timely deliveries.
- **Consignment stock**: we provide a stock of goods, directly at the customer's warehouse, which has the advantage of zeroing out the time associated with transportation and reducing financial fixed assets.
- **Direct containers**: customers have the option of receiving full loads, 20ft or 40ft containers, produced according to their needs in terms of material types and sizes, without having to worry about customs and import paperwork.
